Introduction

Welcome to the Australian Government's Capacity Investment Scheme Tender 3: National Electricity Market – Dispatchable Capacity (**Tender 3**), conducted by AEMO. Registration is now open.

To get started, download the CIS Tender 3 NEM Dispatchable Capacity Tender Guidelines on the [AEMO Services website](#) for an overview of the key design elements of Tender 3, including the Eligibility Criteria and Merit Criteria.

There are two sequential steps involved in initiating your participation in Stage A of Tender 3. The first step is to register your Project (through this Registration Form), and the second step is to complete a Project Bid.

Proponents will gain access to the CIS T3 Project Bid Form within one business day upon submission of this Registration Form.

Key dates:

- Registration Opening Date: 13 November 2024
- Stage A Project Bid Commencement Date: 13 November 2024
- Q&A Opening Date: 19 November 2024
- Registration Closing Date and Time: 11 December 2024 at 5:00 pm AEDT
- Q&A Closing Date and Time: 11 December 2024 at 5:00 pm AEDT

Before you begin

Proponents who have created a SmartyFile organisation profile can set up multiple team members as users for their organisation with different access levels. This feature allows for collaboration with multiple team members on SmartyGrants submissions. For more information on setting up your organisation's SmartyFile profile, visit the [SmartyFile Help Page](#).

Proponents who choose not to set up a SmartyFile organisation profile can work on the Registration Form using the same log-in details. However, at any given time, only one person can be working on the form in the system. In this instance, we recommend that Proponents download a PDF of the Registration Form in order to allow content to be developed in parallel. Please ensure that your team members regularly save their progress, in order to avoid losing any completed information.

For help using this form, download the [SmartyGrants help guide](#) for Proponents or check out [SmartyGrants Proponent FAQs](#).

The first step in the Tender 3 process is completing the Registration Form (this form).

The purpose of Registration is to provide indicative details of the Project for which the Proponent intends to submit a Project Bid, nominate entity details, provide authorised contacts, and indicate the product(s) that you intend to include in your Bid.

Once registered, you will be kept up to date on all the information required to support you throughout the Tender 3 process. You will also receive a submission number, which must be included in the subject line of all future correspondence about your Bid.

Proponents may only register and submit one Project Bid per Project. Proponents must not submit a Duplicative Bid. A Bid will be considered to be a Duplicative Bid if it is in respect of essentially the same Project as another Bid from the same Proponent or its Associates, and only has changes to the configuration or design (such as storage duration or nameplate capacity).

If a Proponent submits Project Bids that are considered by AEMO to be Duplicative Bids, AEMO will accept the compliant Bid that was lodged last. Previously submitted Duplicative Bids will not be accepted and will not be assessed. If Proponents wish to change their Bid, they must notify AEMO via the Online Portal that they wish to withdraw their existing Bid, and then register a replacement Bid before the Registration Closing Date and Time, and submit a replacement Project Bid prior to the Project Bid Closing Date and Time.

Confidentiality and disclosure of information

Information provided by you as part of, or in connection with, this Registration Form will be dealt with by AEMO, in accordance with the terms and conditions set out in this form and the Tender Guidelines. To the extent of any inconsistency, the terms of the Tender Guidelines will take precedence.
